

Covid 19 Policy

At Baby Resuscitation we are committed to keeping you as safe as possible in these difficult times.

Our Covid policy for all classes is risk assessed and in line with current government guidelines on a per venue basis.

All classes held will now;

- Be smaller numbers with social distancing in place
- Have good ventilation in the room

In addition to our existing sterilisation precautions, we will ensure;

- Frequent sterilisation of any equipment used for the resuscitation practise sessions (specifically Resuscitation Face Shields)
- hand sterilisation is encouraged for all attendees upon entry and throughout the course as appropriate
- face mask wearing is compulsory unless impractical for demonstration purposes or an attendee can prove they are exempt. *We reserve the right to request compulsory face mask wearing regardless of government guidelines, to ensure attendee safety.*

Your safety is our highest priory and if you have any concerns, please do not hesitate to contact us.
